PROFILE

Owing to the never ending cases of theft and related incidents, one needs solutions that can guarantee safety and protection of valuables, which led to development of locks of multiple types that claimed to accomplish the former but failed to do so, which is not the case with our offerings. With the goal of providing a more secure alternative, Eskay Locks Industries offers a wide range of highly acclaimed locks of various types and handles whose build quality and durability are class leading.

Our company was established way back in the year 1974, and throughout these years, we have delivered one after another groundbreaking and highly innovative locks whose stellar build quality has been a stuff of legend in the domain. Backed by a team of highly skilled technical experts and experienced marketing personnel, we have solidified our position as a noted Manufacturer and Supplier of products such as Mortice Handles, Mortice Locks, Sliding Cupboard Locks, Cabinet Locks, G.T. Locks, Locker Handles and Locker Handles to name a few, which are available in a number of design variants.

Our company's operations are firmly seated around the consumers, and take into account the factors such as their user experience, how content they are with our offerings and the overall performance of our products in practical scenarios. We incorporate all the aforesaid requisites and to accomplish the same, we employ only the most durable and hardened metal which are then machined with high accuracy using precision calibrated machines and skilled hands of technical experts to make our locks excel at all parameters and effectively stand the test of time.

Why Choose Us

No trait defines Eskay Locks Industries better than trust, which is an integral attributes of our company's policies and has been earned not only on account of the stellar quality products we offer, but also due to the outstanding services that accompany them :

Unmatched durability and endurance

Highly secure locking mechanism

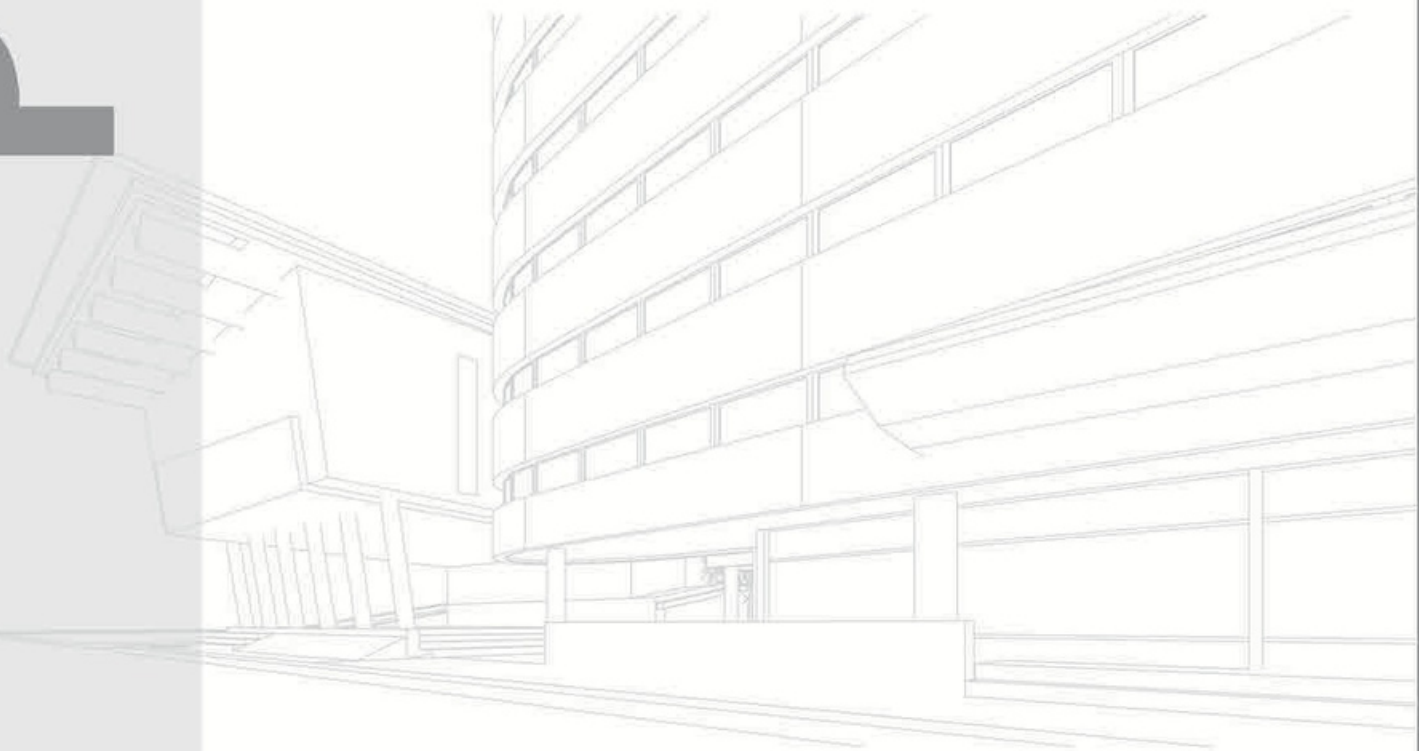

Resistant to rusting as well as acidic and basic corrosion

We are capable of processing bulk orders

Swift dispatch and timed delivery of consignments

Wide supply chain network

Reasonable and highly competitive pricing

To Your Adorable Living

NEW IDEAS

to new ideas. To surprising designs. To the modern reinvention of classic shapes. To the creation of new concepts. To accessories that can completely transform furniture. To innovative materials with a fashionable finish. To minuscule details that can make a huge difference. To designers that leave their mark in everything that they do. To production processes that are respectful to both people and the planet. To simple set-ups that provide sophisticated results. To handles that open up a world of infinite possibilities in decoration. To those who dream them up and to those who create them.
